

SANDIP GUDLE

GAME DEVELOPER

Pune, India - 411018 | 9637659641 | sandipgudle121@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

AVAILABLE TO JOIN IMMEDIATELY

SUMMARY

Unity Developer with two internships shipping gameplay systems, UI, and 3D features in Unity/C#, including a full solo-built horror game with inventory, lighting, and audio systems. Comfortable across the stack from gameplay scripting to low-level performance and rendering (C++, OpenGL, DirectX11, GLSL), with the graphics background to debug rendering and optimization issues most Unity developers escalate. Immediate joiner, ready to contribute from day one.

TECHNICAL SKILLS

Game Engine: Unity (Gameplay Systems, AI, Inventory, Lighting, UI, Audio, Physics), Unity 6 / URP

Languages: C#, C++, C, Java, Python, JavaScript

Graphics: OpenGL, DirectX11, GLSL, Real-Time Rendering

Core CS: OOP, Data Structures, Algorithms, Graphics Programming

Tools: Git, Visual Studio, VS Code, Unity Editor

EXPERIENCE

Unity Developer Intern — Rural Games

Jun 2026

- Built gameplay mechanics, interactive systems, and UI features in Unity 6 (URP) with C#, shipping mobile-friendly HUD, pause menu, and touch-control interactions.
- Implemented an event-driven purchase, inventory, and order-validation system, keeping gameplay state consistent across features.
- Debugged gameplay issues and collaborated with the team through Git-based version control.

Unity Developer Intern — Akiyam Solutions

Dec 2025 - Jun 2026

- Owned gameplay mechanics, interactive systems, and level design for a 3D horror title built in Unity and C#.
- Implemented lighting, audio, and visual effects to strengthen atmosphere and immersion.
- Tested and debugged gameplay features in a Git-based team workflow.

PROJECTS

Rocket Booster Game

- Physics-based rocket navigation game with thrust controls, collision detection, and level progression.

Galaxy Strike Game

- 3D space shooter in Unity with wave-based enemies, particle effects, physics, and progressive difficulty.

Smashing Game

- Arcade-style object-smashing game with randomized spawning, scoring, and multiple difficulty levels.

Endless Speedup Game

- Endless runner with continuous forward movement, obstacle avoidance, and escalating speed and score.

EDUCATION

M.Sc. Information Technology - Dr. DY Patil ACS College | 9 CGPA | 2024-2026

B.Sc. Computer Science - SRTM University | 9 CGPA | 2021-2024

CERTIFICATIONS & SEMINARS

- Real-Time Rendering in OpenGL and DirectX — AstromediComp
- Multi OS Installation Seminar — AstromediComp
