

SANDIP GUDLE

UNITY DEVELOPER

9637659641 | Pune - 411018 | sandipgudle121@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Unity Developer and Computer Science graduate with hands-on experience shipping 3D games in Unity and C#. Built a full horror game solo - Inventory systems, atmospheric lighting, and audio and interned building gameplay systems and level design for a commercial title. Backed by a strong low-level foundation in C, C++, and graphics programming, giving an edge on performance and rendering issues most Unity developers hand off. Seeking an entry-level Unity/Game Developer role.

TECHNICAL SKILLS

Game Engine: Unity (Gameplay Systems, AI, Inventory, Lighting, UI, Audio, Physics)

Languages: C#, C++, C, Java, Python, JavaScript

Core CS: OOP, Data Structures, Algorithms, Graphics Programming

Supporting Graphics: OpenGL, DirectX11, GLSL

Tools: Git, Visual Studio, VS Code, Unity Engine

EXPERIENCE

Unity Developer Intern - Akiyam Solutions (Dec 2025 - Jun 2026)

- Developed a **3D horror game using Unity and C#**, owning gameplay mechanics, interactive systems, and level design.
- Implemented **lighting, audio, and visual effects** for immersive gameplay.
- Debugged and tested gameplay features; collaborated with the team using **Git-based version control** workflows.

Unity Developer Intern – Rural Games (Jun 2026)

- Developed gameplay mechanics, interactive systems, and UI features using **Unity 6 (URP)** and **C#**.
- Built mobile-friendly HUD, pause menu, touch controls, and interaction systems.
- Implemented purchase, inventory, and order validation systems with event-driven architecture.
- Debugged gameplay features and collaborated using **Git** in a team environment.

PROJECTS

Rocket Booster Game

- Built a physics-based rocket navigation game featuring thrust controls, collision detection, and level progression.

Galaxy Strike Game

- Built a Classic 3D space shooter game in Unity. Battle waves of enemy spacecrafts, dodge incoming attacks, and destroy enemies using fast-paced shooting mechanics. Features score tracking, particle effects, physics, and progressive difficulty.

Smashing Game

- Built an Arcade-style object smashing game developed in Unity. Features random object spawning, score tracking, multiple difficulty levels, and progressively increasing challenge for engaging gameplay.

Endless Speedup Game

- Built a Fast-paced endless runner built in Unity featuring continuous forward movement, obstacle avoidance, increasing speed, and score progression that challenges player reflexes.

EDUCATION

M.Sc. Information Technology - Dr. DY Patil ACS College - 9 CGPA (2024–2026)

B.Sc. Computer Science - SRTM University - 9 CGPA (2021–2024)

CERTIFICATIONS & SEMINARS

- **Real-Time Rendering in OpenGL and DirectX** - AstromediComp
- **Multi OS Installation Seminar** - AstromediComp
